SILILO DYNASTY ENTERPRISES

Sililo Dynasty Enterprises (S.D.E) is a female lead, 100% black owned, structural steelwork fabrication and erection company. We have established a reputation for excellence within the commercial development industry by successfully delivering a diverse range of projects including schools, post offices, hospitals, retail developments, industrial units and filling stations. Our principal priority is to uphold the standards and quality of our work to ensure maximum client satisfaction. We take pride in being a part of a number of legacy projects and important landmarks that have been built, and those that are still to be built.

“We are fully equipped to provide a turn-key customer service, managing all aspects of the project”

We specialize but are not limited to structural steel fabrication and erection for the industrial, commercial and private sectors. We are fully equipped to provide a turn-key customer service that manages all aspects of the project, including shop drawings, floor layouts, fabrication, erection, painting, through to sheeting and cladding of the complete steel structure.

WOMEN EMPOWERMENT

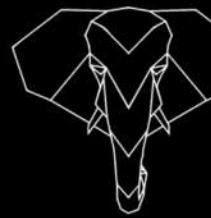

Sililo Dynasty Enterprises is a female lead business. In the efforts to encourage more qualified female representation within a male dominated industry.

Sililo Dynasty Enterprises is in support of more female participation within the steel structure industry as it is perceived to be an unforgiving sector for female leadership and empowerment.

The ethos is also perpetuated within our supply chain in seeking more female owned businesses to supply us with their services and products. The change starts with us, seeing the world of possibilities and equal opportunities across the board. We see our organisation as part of the big vision in being the agent of change by supplying much needed opportunities, in any capacity to foster this vision.

OUR MISSION

Job and Value creation by means of best management practices and an empowered workforce

OUR VISION

To become a major player and attain a leadership position in the steel industry through performance excellence, value for money and superior workmanship

OUR CORE VALUES

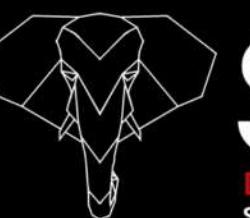

Excellence, Ethical Values, Transparency, Team Work and continual Improvement

OUR TEAM

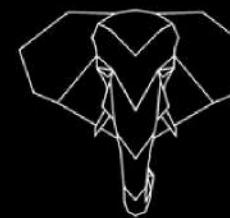

Developing our people is our priority at SDE. Our personnel are highly trained and experienced. Our dynamic team is motivated to meet and exceed the demanding requirements of the construction industry.

We take pride in having a highly skilled team that gives us a competitive advantage in delivering exceptional service and products. Our team holds relevant industry codes and accreditations, as well as plant/machinery training and S.H.E certificates, ensuring the highest level of skill and quality.

SDE prides itself on creating job opportunities for surrounding communities in all projects. Although steelwork fabrication and installation are a specialized skill, we find ways to incorporate labor from the local communities where our projects are based. This not only helps with skills transfer goals but it also fosters a sense of pride and ownership for the local community that they contributed in the completion of a structure that will contribute to making their lives better.

Sililo Dynasty Enterprise Cares

Sililo Dynasty Enterprises is built by people who go the extra mile to achieve great things. Just as our founder, Mr. Sakuya Sililo, built himself from humble beginnings into an industry leader, so too does SDE focus on developing the next generation of leaders through opportunities and skills training.

Because of this SDE is deeply involved in projects that develop the communities within which we live and work.

SDE has a policy to employ unskilled and semi-skilled youth from neighboring communities. These youths are up-skilled via on-the-job training and are given essential skills for them to continue in-trade or alternatively to go and open related businesses in their communities.

SDE has partnered with a youth skills training company to provide facilities and trainers for the practical/ On-The-job portion of their studies. These students will be hosted and trained at SDE's site at various stages throughout their studies and until their successful completion of relevant trade test. This program focuses on fighting youth unemployment by providing opportunities to both youth and particularly women.

SDE believes strongly in women empowerment and is creating new opportunities to create training and jobs opportunities for young women within the industry. This will include providing training support and job training opportunities that are not usually made available for women.

Area of Expertise

S.D.E undertakes steelworks to clients requirements and specifications , whether it be fire escapes, clinics , hospitals, factories or shopping malls, as long as its steelwork we do it all regardless of size or magnitude, our scope of works includes but is not limited to the following:

Structural steelwork (Mining and commercial)

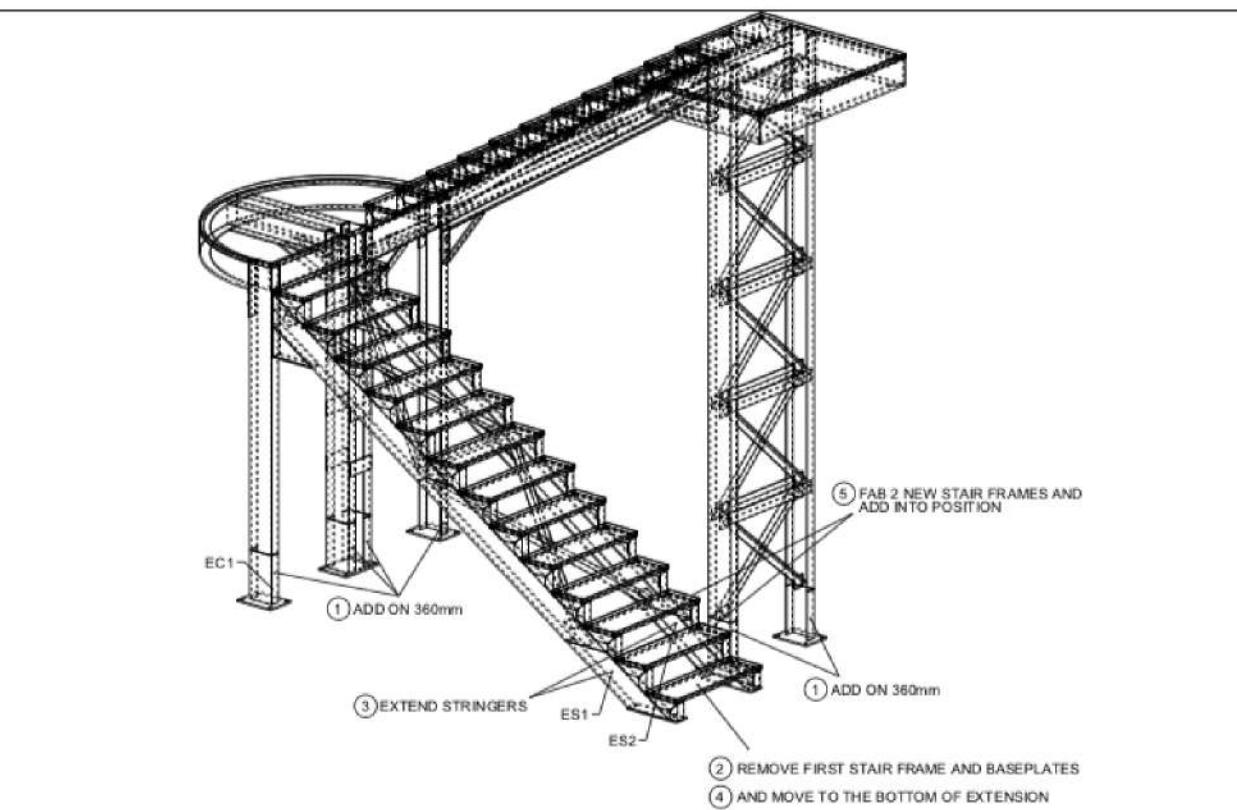

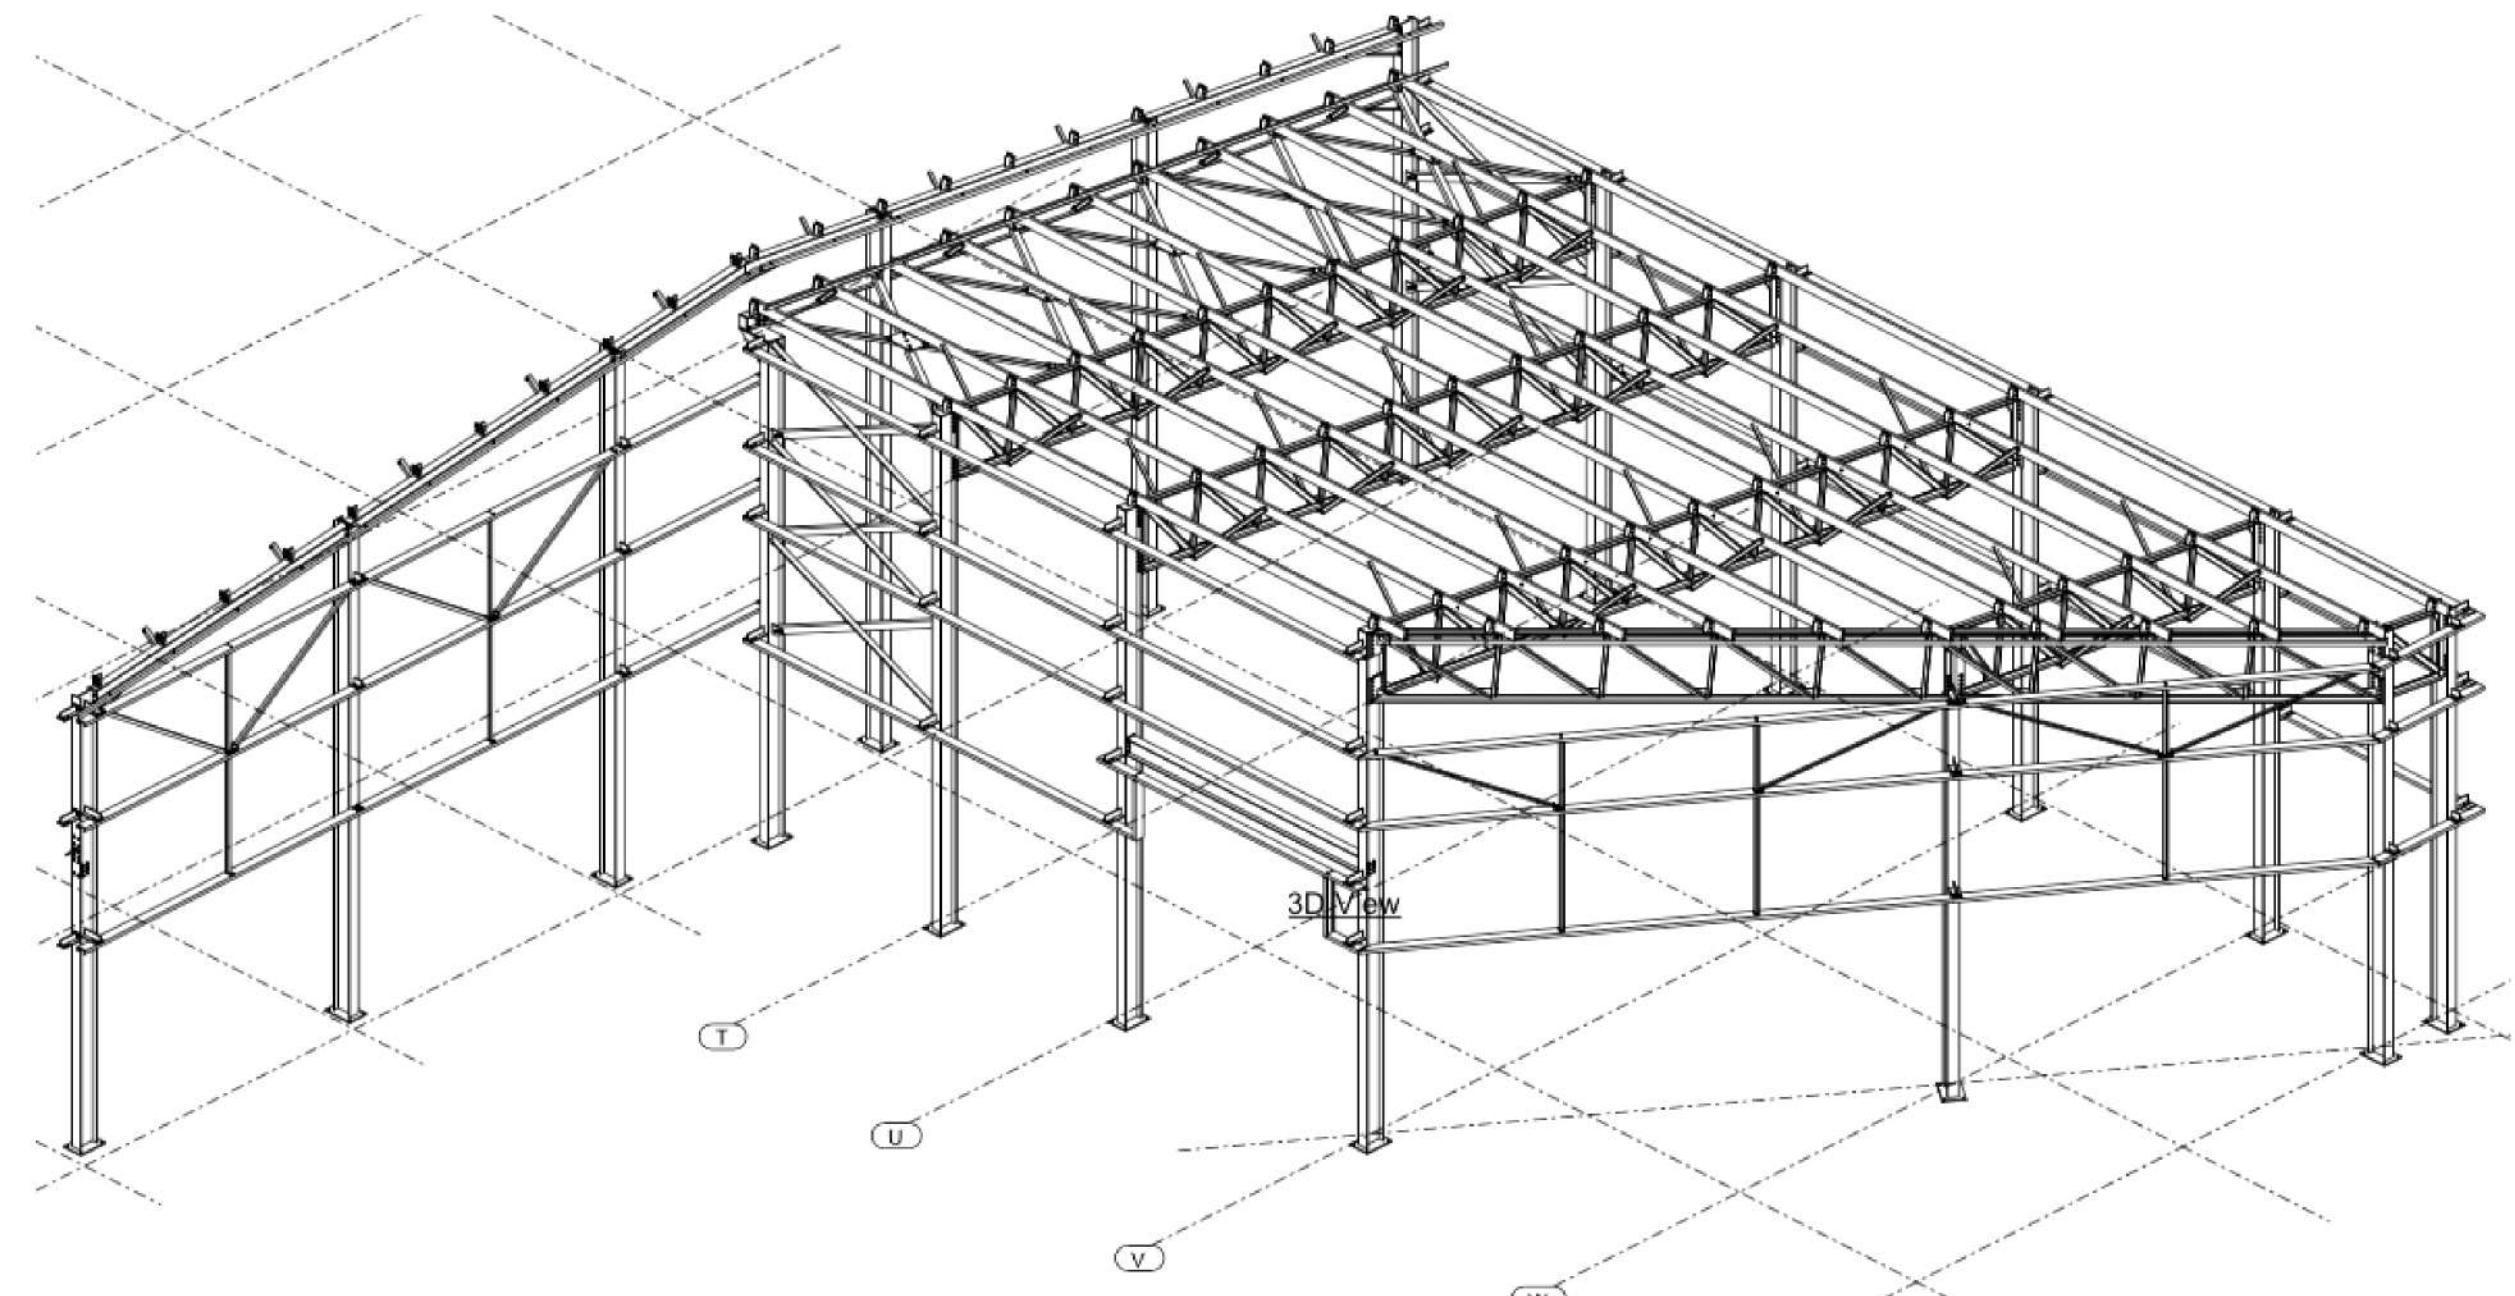

- Plate work
- Architectural steel
- Conveyor steel work
- Bridges
- Industrial buildings
- Mining structures

Design and Fabrication Services from S.D.E

S.D.E offers steelwork design and drawings; steelwork is detailed on the latest StruCad 3D modelling software, which ensures an accurate and efficient design process.

S.D.E are specialised steel fabricators, the cutting and fabrication process is carried out with precision and expertise at our workshop premises.

Steel Erection Services

Our experienced team of steel erectors put up the structural steelwork with competence and accuracy. Our steel erectors are all qualified and experienced ensuring an efficient steel erection process.

Cladding and Roof Sheeting

Upon completion of the steel erection, we can roof sheet and clad the building to your specific cladding requirements.

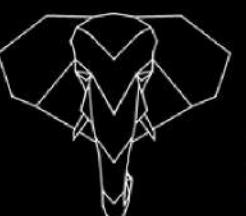

Health & Safety

The Health and Safety Policy of our company is designed to comply with the standards of the Occupational Health and Safety Act, and to endeavour to maintain a safe and injury/illness free work place. S.D.E's policy that accident prevention be a prime concern of all employees. This includes the safety and well being of our employees, contractors, and customers, as well as the prevention of wasteful, inefficient operations, and damage to property and equipment.

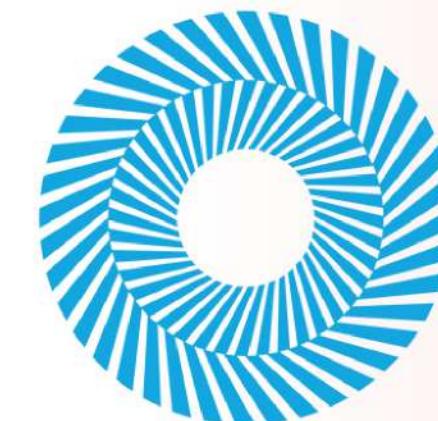

Our Objectives are:

- Compliance with legal requirements through good occupational health and safety performance.
- Establish and maintain a safe and healthy working environment.
- Ensure that significant risks arising from work activities under our control are eliminated or adequately controlled.
- Develop and implement appropriate occupational health and safety procedures, and safe working practices.
- Include the management of health and safety as a specific responsibility of managers at all levels.
- Ensure this policy is understood and implemented throughout the organisation.
- Involve employees in health and safety decisions through consultation and co-operation.
- Maintain workplaces under our control in a condition that is safe and without risk to health.
- Regularly review compliance with the policy and the management system that supports it.
- Provide sufficient information, instruction and supervision to enable all employees to avoid hazards and contribute to their own health and safety at work.
- Ensure that employees receive appropriate training and are competent to carry out their designated responsibilities

TESTIMONIALS

SILILO
DYNASTY ENTERPRISES
STEELWORK FABRICATORS & ERECTORS

*"We all know each and every project has its own dynamics but at the end we have to deliver as agreed upon. With Sililo Dynasty we found it easy to push and deliver in time as expected by our clients. We even exceeded their expectations." **Rendani Mukwevho - Project Manager SKS Business Solutions***

*"Working with Sililo Dynasty was an eye opener for me personally. Their performance is outstanding, their workmanship is of quality and they are very committed. One thing that stands out from Sililo Dynasty is the good mannerism and professionalism I experienced working with them. Very respectful and understanding individuals. I thoroughly enjoyed the time we endured the contract together and definitely look forward to engaging them into my future projects." **Pieter J Cloete (New Concept Developers, Zimbabwe)***

*"We thank you for doing business with us. You have performed exceedingly well and we are pleased with your quality and workmanship." **Cliff Maseno (Site Agent - Maseno General Trade)***

*"Working with them was a rewarding experience, from quote to delivery to the installation, the management was on point and the project delivery plan was executed punctually, a lot of transparency on the installation and open communication was appreciated from the site staff. Our expectations on the project were exceeded, we will definitely recommend them" **Cleophas Govender (Solidaire construction)***
